

CM1602 : Data Structures and Algorithms for AI

Tutorial 6 - Part 2

Consider the following Array:62,89,32,67,21,39,88,55,94.

1. Implement Bubble sort and sort the given array.
2. Implement Selection sort and sort the given array.
3. Implement Merge sort and sort the given array.

Additional Exercise

1. Implement Quick sort and sort the given array.
